Little Loopies Instructions

These fun dimensional designs will enchant and delight creative people of all ages. This new process is so easy to do! Simply use water soluble or “wash-away” thread in the bobbin for some of the thread changes so that the top stitches can fluff out. The color changes that require wash-away thread in the bobbin are noted on the thread chart by a “WAB” (Wash-Away Bobbin) next to the thread color. All color changes not indicated by WAB in the thread chart will need regular OESD bobbin thread in the bobbin. Voila! You’re done – easy breezy!

This sample shows design CM321_48.

1. Stitch the entire design. Be sure to use the water soluble thread in the bobbin on colors with the “WAB” notation and OESD Bobbin Thread in all other colors.
2. When all stitching is completed, fully immerse the item in warm water to remove the water soluble bobbin thread.
3. Very gently fluff the top threads and allow to dry.
