

To use the Jeans Jacket in your Explorations software (Classic or Galaxy editions only):

1. Download the design into your desired folder
2. Unzip it
3. Open Explorations
4. Click Tools menu & open Filing Assistant
5. Find the folder in which you saved the Jeans Jacket
6. Open a project in Explorations
7. Drag & Drop the Jeans Jacket article onto the workspace
8. Open Articles mode
9. Select the jacket and use the Smart Tape to size it (you may need to ungroup the jacket first)

Please visit www.sewingsavvy.com to order the September 2006 issue of the magazine if you would like directions for the embroidering the pictured jacket.
