

Time Flies Clock

Created by Tamara Fox

Supplies

- Pre-purchased clock
- OESD AquaMesh Water Soluble Stabilizer
- Organdy or organza large enough for your small embroidery hoop
- Fabric for frog design background
- Fabric for frog design appliques
- Fabric glue
- Poster board
- Eyelash trim or ribbon for embellishment (optional)
- OESD Signature Collection #12292 Words of Whimsy available at: www.EmbroideryOnline.com
- Embroidery machine with jumbo hoop. Clock face requires minimum sewing field of 9.5" x 9.5"

Embroidery

- Stitch frog design (#CM478_48) on fabric that is larger than your pre-purchased clock face.
- Stitch fly design (#CM479_48) on organza or organdy with AquaMesh as stabilizer.
- Cut around fly close to stitching taking care not to clip threads.

clock

- Disassemble clock. **(Photo 1)**
- Cut poster board to fit inside the clock face.
- Bore hole in center for hands. **(Photo 2)**
- Fold stitched frog in half and carefully cut a small hole in the middle for the hands. **(Photo 3)**
- Thinly spread fabric glue on poster board. Use a spreader to ensure a thin layer, so that glue does not soak through your fabric.
- Position frog over your cut poster board, lining up holes.
- Allow to dry.

- Cut excess edges of fabric. **(Photo 4)**
- Glue new clock face into pre purchased clock. Take care to line the number twelve up with the original clock face as your clock may have a pre-drilled hole for hanging.
- Embellish edge of clock with eyelash trim or ribbon if desired.
- Glue fly to the minute hand.
- Re-assemble clock (you may choose to not replace the glass if it interferes with embellishment trim).
- Hang.
