Please Note: Only designs with the word “freestanding” in the design title are freestanding lace. All other designs require a fabric base.
Listings below indicate color sample, stitching order and suggested thread color number, Isacord, Yenmet or YLI Variegated threads.

---

**SUPPLIES:**

**Embroidery Thread:**
- Use the same Isacord thread in the bobbin as the needle.

**Needles:**
- Use an Organ 80/12 Titanium needle for extended needle life.

**Stabilizer:**
- OESD AquaMesh or OESD BadgeMaster water-soluble stabilizer.

**GENERAL INSTRUCTIONS**

1. Hoop two layers of OESD AquaMesh or one layer of OESD Badge Master water-soluble stabilizer.
2. Attach the hoop to the machine and select the design of your choice.
3. Stitch the design.
4. Remove the hoop from the machine and the design from the hoop. Trim excess stabilizer from the design.
5. Rinse away remaining stabilizer and allow it to dry.

**HANDY HINTS:**

For Stiffer Lace:
- DO NOT RINSE away all of the stabilizer for a “stiff-er” lace. However, do note that the thread may appear a shade darker if stabilizer is not removed completely.
- If you happen to wash too much out, easily re-stiffen the item in the solution.

For Very Soft Lace:
- Cut away excess stabilizer. Remove remaining stabilizer by rinsing under warm running water until all traces of the stabilizer are gone.
- Note: If lace should become too limp to work with, dissolve stabilizer scraps in warm water and apply to the lace.

**Drying Lace:**
- Lay lace piece with right side down to dry. This will minimize the tendency for the lace to curl.
