1. Print out the necessary pages from the PDF of the appliqué pattern(s).
2. Mark the right side of the pattern pieces so you'll know which direction to lay the pattern on the fabric.
3. Lightly spray the wrong side of the pattern pieces with temporary adhesive spray and allow it to set for a few minutes.
4. Place the pattern pieces on the right side of the fabric and carefully cut them out. **PHOTO 01**
5. Sew the guide stitch on your hooped fabric. **PHOTO 02**
6. With the paper still stuck to the right side of the appliqué fabric, spray the wrong side of the fabric with temporary spray adhesive.
7. Place the fabric inside the sewn guide stitch so that it matches the stitching line then remove the paper pattern. **PHOTO 03**
8. Sew the tackdown. **PHOTO 04**
9. Sew the remainder of the design and repeat for any remaining pieces. **PHOTO 05**

**NOTE:** The patterns are sized for the designs as they were made. If you resize the design, you will need to resize the pattern the same amount. You can print out the pattern at the normal size and then copy it on a copy machine at the changed size, i.e. resize the design to 80%, resize the printed pattern to 80%.

**TIP:** When printing the patterns, make sure that the “Fit to page” option is **UNCHECKED** in the Print Dialog Box. If this option is checked the printed patterns will not be actual size.

**NOTE:** Designs CC05105-CC05114 can become freestanding appliqué elements by simply stitching them on water soluble stabilizer. After stitching, cut away excess stabilizer and then wash the remaining stabilizer away following the manufacturers' instructions. Attach these freestanding appliqué elements to your projects by hand stitching, machine tacking or gluing in place.

# IMPORTANT:

When printing this document, the “Fit to page” option must be UNCHECKED or the “Page Scaling” option must be set to NONE depending on your printers options. If this option is set incorrectly, the prints will not work correctly as patterns because they will not print at actual size.
